PROFESSIONAL SUMMARY

Data analytics professional with a B.S. in Computer Science and hands-on experience in SQL, Python, Excel, Sisense/Periscope, and Amazon Redshift. Skilled in developing dashboards, automating reporting, analyzing operational and financial data, and improving data quality to support business decision-making. Experienced in translating stakeholder needs into clear, actionable insights.

TECHNICAL SKILLS

Data & Analytics: SQL, Python, Microsoft Excel, VBA

Business Intelligence: Sisense/Periscope, Dashboard Development, Data Visualization, KPI Reporting

Databases & Tools: Amazon Redshift, Git/GitHub, EHR Systems

EXPERIENCE

Program Data Specialist (Data Analytics & Reporting)

June 2025 – Present

ChildNet Youth and Family Services

Long Beach, CA

- Serve as the **primary data reporting and analytics resource** for department leaders, translating business and operational requirements into **SQL dashboards, automated reports, and actionable analysis**.
- Develop and maintain **10+ operational dashboards** using **Sisense/Periscope and Amazon Redshift SQL** to track KPIs, client activity, financial performance, and operational requirements.
- Streamlined reporting and data workflows by **20%** through dashboard automation, improved reporting logic, and more accessible data visualization.
- Analyze and validate financial and operational data across multiple systems, identifying discrepancies and supporting reporting on **\$50K+ in monthly profits**.
- Monitor data quality across an EHR system containing **2,000+ client charts**, developing validation and cleaning reports that identified errors in **100+ records** and improved reporting accuracy.
- Partner with department leaders and end users to **gather requirements, investigate business questions, prioritize reporting requests, and develop data-driven solutions**.
- Prepare recurring analyses using **Excel PivotTables, lookups, filters, and charts** to transform complex datasets into clear business insights.
- Provided reporting and data support for expansion of the **Enhanced Care Management program** from **approximately 20 to 200+ clients across three counties**, contributing to **\$30K+ in monthly revenue growth**.
- Deliver agency-wide training on **dashboards, SQL, and advanced Excel**, helping teams understand KPIs and incorporate data into operational decision-making.

Program Data Assistant

March 2025 – June 2025

ChildNet Youth and Family Services

Long Beach, CA

- Supported **SQL-based dashboard maintenance, ad hoc reporting, and EHR data workflows** using Sisense/Periscope and SQL-based data sources.
- Supported internal teams with **reporting requests, data entry, EHR troubleshooting, and workflow issues**, while maintaining documentation for business systems and reporting processes.
- **Promoted to Program Data Specialist within three months** after demonstrating rapid technical growth and the ability to support increasingly complex **data and reporting needs**.

EDUCATION

California State University, Long Beach (CSULB)

Long Beach, CA

Bachelor of Science in Computer Science, Minor in Cybersecurity | GPA: 3.9

August 2021 – December 2024
